SPECIAL CONDITIONS OF CONTRACT

**Hiring consultancy services for implementation of
integrated management system (IMS) for all 03 GA's
of Bhagyanagar Gas Limited**

Volume II of II

Bid Document No. BGL/639/2024-25

SPECIAL CONDITIONS OF CONTRACT (SCC)

1.0 GENERAL

- 1.1 Special conditions of contract (SCC) shall be read in conjunction with the General Conditions of Contract (GCC). Schedule of rates, specifications of work, drawings and any other document forming part of this contract wherever the context so requires.
- 1.2 Notwithstanding the sub-division of the document into these separate sections and volumes, every part of each with and into the contract so far as it may be practicable to do so.
- 1.3 Where any portion of the GCC is repugnant to or at variance with any provisions of the special conditions of contract, then unless a different intention appears, the provision(s) of the special conditions of contract shall be deemed to override the provision(s) of GCC only to the extent that such repugnancies or variations in the special conditions of contract are not possible of being reconciled with the provisions of GCC.
- 1.4 Wherever it is stated in this Bidding Document that such and such a supply is to be effected or such and such a work is to be carried out, it shall be understood that the same shall be effected/carried out by the contractor at his own cost, unless a different intention is specifically and expressly stated herein or otherwise explicit from the context. Contract value (also referred to as Contract price) shall be deemed to have included such cost.
- 1.5 The materials, design and workmanship shall satisfy the applicable relevant Indian Standards, the job specifications stipulate requirements in addition to those contained in the standard codes and specifications, these additional requirements shall also be satisfied. In the absence of any Standard/ Specifications/codes of practice for detailed specifications covering any part of the work covered in this Bidding on the contractor.
- 1.6 In partial modification to Clause No.21.0 of GCC the following shall apply:
In case of contradiction between Indian or other applicable Standards, General Conditions of Contract, Special Conditions of Contract, Specifications, drawings, Schedule of Rates, the following shall prevail in order of precedence:
 - i) Letter of acceptance alongwith statement of Agreed variations.
 - ii) Fax / Letter of Intent / Fax of Acceptance
 - iii) Schedule of Rates as enclosures to letter of acceptance
 - iv) Job / Particular Specifications
 - v) Drawings
 - vi) Technical / Material Specifications
 - vii) Special Conditions of Contract.
 - viii) General Conditions of Contract
 - ix) Indian Standards
 - x) Other Applicable Standards

It will be contractor's responsibility to bring to the notice of Engineer-in-charge any irreconcilable conflict in the contract documents before starting the work(s) of making the supply with reference which the conflict exists.

**Hiring consultancy services for implementation of

SCOPE OF WORK

Hiring consultancy services for implementation of integrated management system (IMS) for all 03 GA's of Bhagyanagar Gas Limited

Volume II of II

Bid Document No. BGL/639/2024-25

SCOPE OF WORK

Implementation of Integrated Management System (IMS) at BHAGYANAGAR GAS LIMITED against requirement of **ISO 9001:2015, ISO 14001:2015 & ISO 45001:2018.**

BHAGYANAGAR GAS LIMITED is a joint venture of GAIL(I) Ltd., & HPCL and is in the process of supplying piped natural gas to the domestic, commercial, industrial and CNG for vehicles transportation sections within the Geographical Area of Hyderabad, Vijayawada and Kakinada.

The CGD infrastructure consists of following:

1. City Gate Station comprising of Odorizing unit, Isolation valves, metering etc.
2. CNG Stations comprising of:
 - a) Compressors,
 - b) Dispensers,
 - c) Cascades,
 - d) LCV filling points,
3. Steel grid network,
4. MDPE Network,
5. District Regulating Station (DRS),
6. Meter Regulating Station (MRS) for Industrial, Commercial & Domestic Customers,
7. Steel grid pipe lines, MDPE grid pipe lines, Isolation Valves with vent lines in Steel & MDPE Lines.

CITY GAS STATION:

Bhagyanagar Gas Limited receives Natural Gas from M/s. GAIL in Vijayawada and Kakinada and from M/s. Pipeline Infrastructure Limited (PIL) in Hyderabad. CGS is an Interface station between the Main Natural Gas Pipeline and Bhagyanagar Gas Limited CGD network. The City Gas Station located in all the three Geographical Station is also called CGS cum Mother Station as the facility was developed where filling of LCV cascades takes place.

CNG STATION:

In CNG stations (on-line as well as mother), there are either Gas Engine or Motor driven compressor of different capacities 2000 SCMh (GD), 1900 SCMh (ED),

Hiring consultancy services for implementation of integrated management system (IMS) for all 03 GA's of Bhagyanagar Gas Limited

Volume II of II

Bid Document No. BGL/639/2024-25

1200 SCMH, 600SCMH, 400SCMH, 250SCMH which compresses gas up to 250 Kg/cm² with a suction pressure of 14-19 Kg/cm². In stationery cascades, gas stored at a pressure of 250 Kg/cm² & CNG is dispensed in vehicle at 200 Kg/cm². SS tubes are also laid in the trench. CNG is dispensed in public vehicles & CGD networks including CNG stations are installed in the city areas.

The Definitions of CNG stations:

Mother station: CNG facility connected to natural gas pipeline and having a compressor meant primarily to fill mobile cascades for „daughter“ stations. In addition to above, can also fill stationary cascades for CNG dispensing into vehicles

Online CNG Stations: Online stations are connected to the pipeline and have high compression capacity. These stations supply CNG to both vehicles and daughter stations (through mobile cascades). These CNG stations comprise of compressors, dispensers, storage cascades and facility for filling the mobile cascades.

Daughter Booster Stations: Daughter Booster Stations are not connected to natural gas pipeline and have compressor which compresses the CNG of mobile cascade and dispense to the vehicles(s). There is a reduction in storage pressure at daughter booster station with each successive filling.

Daughter Stations: Daughter stations dispense CNG using mobile cascades. These mobile cascades at daughter stations are replaced when pressure falls below the requirement, and pressure depleted mobile cascades are refilled at the Mother Station. There is a reduction in storage pressure at daughter station with each successive filling.

PNG installations are installed comprising of MDPE pipe lines, steel pipelines, DRS, MRS, individual meters, regulators, risers, pipes & fittings, Commercial, Domestic & Industrial Installations etc.

District Regulatory Stations (DRS): The gas pressure is reduced to distribution pressure in DRS, for transmission and supply purposes. The DRS is directly linked to the main steel pipeline. From the DRS, takes off the Medium Density Polyethylene (MDPE) network. The MDPE network of pipes carries and distributes PNG right up to the customer premises.

Meter Regulating Stations (MRS): It comprises of regulator and meters for measuring the gas supplied to the consumers. The pressure regulatory further reduces the PNG pressure in the pipeline to millibars.

Bhagyanagar Gas Limited installations at various cities:
